

SHRAVAN CHAUDHARI

WEB DEVELOPER

ABOUT ME

I am freelance frontend web developer. My main skill is React JS. My other skills are Next JS, Redux, React context API, Styled components, Tailwind CSS, Firebase, React Hooks. I use Figma as wireframing tool to design my websites.

EDUCATION

EDUCBA

2020 | Certificate Course in web development

PROJECTS

2020 Amazon clone (This is the app with fully e-commerce functionality)

- This App is build using Firebase and React JS.
- This app has the functionalities like user authentication, shopping cart, payment gateway.

2020 Spotify clone (An app build using Spotify web API)

- This app is build using React JS.
- The cool thing about this app is that it uses Spotify user authentication and it pulls the data of user dynamically for Spotify database.
- All this is possible due Spotify Web API.

2021 WhatsApp clone (This room base chatting app)

- This app is build using Firebase and React JS.
- This app has different room in which we can chat with people.
- It has google authentication.

SKILLS

React JS
CSS
Firebase
